EDUCATION

DR. D.Y. Patil School Of MCA, Pune
Master Of Computer Application (MCA)

Pune, MH, IN
Aug 24 – May 2026

Jeevan Vikas Mahavidyalay, Ch. Sambhajinagar
Bachelor Of Science (B.Sc.)
Percentage: 61.04%

Ch. Sambhajinagar, MH, IN
Jul 2020 – Jun 2023

S.B. Junior College, Shivoor
Higher Secondary Certificate (HSC)
Percentage: 65.40%

Sambhajinagar, MH, IN
Aug 2019 – Mar 2020

TECHNICAL SKILLS

Programming Languages: Java, C, Python, JavaScript.

Security: Spring Security, JWT

Backend: Spring Boot, Spring Framework, REST APIs, JDBC, Servlets, JSP .

ORM: Spring Data JPA, Hibernate

Frontend: React.js, HTML, CSS, JavaScript, Bootstrap, Thymeleaf .

Databases: MySQL, MongoDB, SQLite

Tools and Software: Git, GitHub, VS Code, IntelliJ, Postman

Build: Maven

TRAINING

NareshIT Software Training Institute

Jul 23 – Jul 24 | Hyderabad , TL, IN

- Completed training in **Java Full Stack Development** with **spring Framework** for building robust and scalable applications.
- Practiced building web applications using Java, Spring, databases, frontend technologies, and REST APIs.

PROJECTS

BookBloom - Online Bookstore

Jan 2026

(Java, Spring Boot, Thymeleaf, MySQL, HTML, CSS, JavaScript, Bootstrap)

- Built a web-based online bookstore using Spring Boot, Thymeleaf, Spring Data JPA, and MySQL following MVC architecture.
- Implemented user registration, login, book browsing, and order management functionality.
- Developed dynamic and responsive user interfaces using Thymeleaf, HTML, CSS, JavaScript, and Bootstrap.
- Designed the backend using Controller, Service, and Repository layers to separate business logic, API handling, and data access.
- Implemented server-side form handling and database-driven pages for books, users, and orders.

Vehicle Service Management System

Mar 2026

(Java, Spring Boot, React.js, JavaScript, MySQL)

- Developed a full-stack vehicle service management system using Spring Boot REST APIs, React.js, and MySQL to manage vehicle servicing operations.
- Implemented role-based access control for Admin, Owner, Advisor, with secure authentication using Spring Security and JWT.
- Applied layered and modular architecture using Controller, Service, Repository for maintainable backend development.
- Created Admin features for managing vehicles, service tasks (CRUD), users, and invoice generation.
- Integrated Spring Data JPA/Hibernate with MySQL for persistent data management and database operations.

CERTIFICATION

- ELTIS – Spoken English Course | 2023
- NareshIT – Full Stack Java Development | 2024
- NPTEL – Data Analytics with Python | Jan–Apr 2026

ACHIEVEMENTS & INTERESTS

- Chess player with 1900 rating on Chess.com
- Represented Jeevan Vikas Mahavidyalaya at the Dr. Babasaheb Ambedkar Marathwada University (BAMU) Chess Competition
- Interests: Chess, Problem Solving, and Technology

LANGUAGES

English (Fluent), Hindi (Fluent), Marathi (Fluent)
